PROFILE

Driven third-year Computer Science student with a passion for web development and software engineering. Seeking an internship to apply skills in HTML, CSS, JavaScript, C, C++, Java, and PHP. Eager to contribute to innovative projects and gain hands-on experience in a dynamic environment.

PROJECTS

SUPERSTORE MANAGEMENT SYSTEM

- Implemented an object-oriented C++ Superstore Management System utilizing classes for products, inventory, and billing to manage a simulated supermarket environment.

FUREVERMART ECOMMERCE WEBSITE

- Developed a full-stack e-commerce website "FureverMart" for a pet store using HTML, CSS, JavaScript, PHP, and MySQL. The platform facilitates online sales of pet supplies with features including product browsing, secure checkout, and user account management.

AMAZON CLONE WEBSITE

- Developed a full-stack e-commerce website "FureverMart" for a pet store using HTML, CSS, JavaScript, PHP, and MySQL. The platform facilitates online sales of pet supplies with features including product browsing, secure checkout, and user account management.

TIC TAC TOE GAME USING AI

- This Python-based Tic Tac Toe game features an AI opponent employing the Minimax algorithm, offering players an entertaining challenge. With a simple yet effective design, the game provides an immersive experience solely within the Python environment. Players can enjoy strategic gameplay against the AI, honing their skills in this classic board game.

PORTFOLIO WEBSITE

Developed a personal portfolio website to showcase my skills, projects, and experience in web development and software engineering. The site features a clean, responsive design and includes sections for my bio, resume, project portfolio, and contact information.
